Red was steady, common to good samples bringing 210a225 cents. White Corn in good order brought 120a122 cents, and yellow 130a132 cents, the principal transactions being at the extreme prices. Oats were quiet at 73a74 cents, measure, and 80a83 cents weight. No sales of Rye. Good Maryland held at 115a120 cents.

Molasses .- In the absence of sales we continue quotations, which are necessarily nominal, viz: New clayed Cuba at 42a45 cents, Muscovado do. in hbds. at 50a62 cents, do. do. in bbls. at 65a68 cents, English Island at 50a75 cents, and Porto Rico at 55a75 cents.

Financial. [From the New York Commercial, May 4th.]

The stock market is quiet, and prices steady. At the first board there was a general inac-tivity. The "bears" showed little disposition to sell short, and the "bulls" showed no disposition to press immediately the advantage won yesterday in Erie. A lot of two thousand shares was "slumped" upon the board, for the purpose, apparently, of destroying the firm-ness created by yesterday's purchase of ten thousand shares; but the lot was taken at 80%. It is very clear that the "bear" party have not the means of resisting the strong combinations formed against them; and it would appear that they cannot escape from their corner without an unusually severe loss.

Government bonds were steady but quiet, operations being held in abeyance until the next arrival from England. Quotations were about the same as yesterday, except on Ten-forties, which advanced 1%. The absence of any anticipation of a return of bond from Enrope is evinced in the weakness of exchange. It is impossible to sell any considerable amounts of sterling except at a deduction of % from the current quotations. The immense subscriptions for Seven-thirties shows the growing strength of the public credit.

The miscellaneous list was quiet, but generally a shade higher. The whole interest of the market centers in the struggle for the command of Erie, the key stock of the list. Money continues abundant, and without change in rates. Brokers borrow on call at 4 to 5 per cent.; the latter being the rate on Gov. ernment collaterals.

Discounts continue dull. Good paper is in demand, but the amount offering is very limited. The best notes are current at 6 per cent.; other grades at 7 % a10 per cent. Foreign exchange is dull. Drawers ask higher rates than buyers are disposed to pay,

and there is consequently a large postponement of remittances. Gold is more active and firmer. Yesterday's export was larger than anticipated; and this morning purchases have been made for remit-tances abread, in preference to paying the pre-

sent rates of exchange.

Meeby to His Troops .- Just before running away, the guerrilla leader Mosby issued the following address to his troops:

" FAUQUIER, April 21, 1865. "Soldiers: I have summoned you together for the last time. The vision we have cher-ished for a free and independent country has vanished, and that country is now the spoil of a conqueror. I disband your organization in preference to surrendering to our enemies. 1 am no longer your commander. After an association of more than two eventful years, I part from you with a just pride in the fame of your achievements and grateful recollections of your generous kindness to myself; and now at this moment of bidding you a final adien, accept the assurance of my unchanging confidence and regard. Farewell.

"J. S. MOSBY, "Colonel commanding battalion."

ID Booth's business in Montreal last fall, it is said, was to make arrangemen's for the shipment of his theatrical wardrobe to Nassau, and thence into a Confederate port, as he had determined to go South to resume his profession, which he could not follow at the North on account of his bronchial affection. It is said that his wardrobe was actually shipped at Halifax on board of a schoener which was n ever heard of after.
